—New corn began coming in to the elevator, Monday, and the price is starting at 75 cents per bushel. The rain, Tuesday, stopped the corn husking for a few days. The rain will be a big help to the wheat, that has been sown, which has been needing moisture. With favorable weather, there will be quite a lot more wheat sown.

after the long ride, they were walked out to the Kahn ranch, and to the surprise of those who had them in charge, they kept the road in good shape.

—The Sentinel force is to be congratulated on their write-up of Oregon's diamond anniversary, and a whole lot of stuff is to be learned by reading it over two or three times. It's good stuff, and Oregon people, in particular, have reason to be proud of Tom and the Deacon, the wheel-homies who are guiding The Old Reliable Sentinel.

—The Craig Leader, last week, started on its thirtieth year, and during the life of the paper, they have much to be thankful for. The Leader is one of our enterprising papers, and Holt county people, and Craig people generally, have reason to be proud of the Leader, and we join their many friends in wishing them many more prosperous years.

—The boy with a smile has abandoned his "jitney," and last Sunday was out on the public roads, driving a rig that at one time was called a buggy. There were back wheels on in front, and the rear wheels were taken from a cultivator, and we are not going to say what one of our prominent ladies called him, but he was rambling right along just the same.

—Head Consul Commander of the Woodmen of the World, Claude Manlove, of Kansas City; District Manager, E. H. Bettis, of St. Joseph, were the guests of Tom Bridgman, one day, last week, and in the evening, they visited the Woodmen Camp, at Graham, where they were royally entertained with a banquet. Smokey Overly was the chauffeur, which always means the trip was made without accident.

—The first snow storm of the season showed up last Thursday, and was especially hard on stock. Bigelow people got busy right away and put up their base burners and heating stoves in short order, and for a wonder, so far as we have been able to learn, no one got out of humor about the stove pipes not fitting just right. Saturday, the cold north wind left us, and Old Sol got on the job once more, much to the delight of all concerned.

—A family reunion was enjoyed at the home of Mr. and Mrs. H. M. Davis, with the usual big dinner, last Sunday, and the day was very pleasantly spent in visiting and talking over old times. Mrs. Wise is the mother of Mrs. H. M. Davis and W. M. Troxell, Mrs. Galloway a sister, and Mrs. Moody an aunt.

—There was a good crowd in attendance at Woodmen Circle meeting, Wednesday evening of last week. Deputy Mrs. Helen Loomis, of St. Joseph, and Supreme Manager, Mrs. C. M. Kelly, of St. Louis, were visitors, and both ladies made interesting talks along lodge lines. On account of sickness in her family, Mrs. Loomis has not been here for some time, and expects to attend the meetings more often in the future. An extra effort is to be made to increase the membership to 75 before December 1, in order that the Circle may be entitled to two delegates to the next convention, which will be held in Columbia, Mo., next spring. They now have a membership of 67, and it should be an easy matter to obtain 10 or 15 new applications. Mrs. Kelly and Mrs. Loomis were the guests of Mrs. V. A. Solleder while here.

—Grandma Chuning was very pleasantly surprised on her 78th birthday, October 11, when Mrs. M. B. Williams invited a few of Grandma's friends to come and help her celebrate her birthday. Mrs. Williams prepared a sumptuous dinner for the guests, and when Grandma's friends began to arrive, she began to worry as she did not know that preparations had been made. The day was spent in visiting and talking over old times, in which all joined, and the guests departed late in the evening, wishing Grandma many more happy birthdays. Those who were there were: Uncle Milt Randall and wife, Aunt Matt Hinkle, Mrs. W. E. Preston, Mrs. Hattie Chuning, Mrs. M. B. Melton, Mrs. Serepta Graham, Mrs. Julia Jones, and Grandma's nieces, Mrs. W. O. Bechtel, of Hiawatha, Kansas, and Mrs. Lettie Griner, of Horton, Kansas, and nephew, Eld Jeffries and wife, of Robinson, Kansas, and grandniece, Mrs. Ada Heanser, of Salt Lake, Utah.

—Brother Roy P. Adams and wife will give their farewell sermon at the Christian church, next Sunday evening, October 29, before leaving for their trip to Japan, and they should be greeted with a full house. Roy was born and raised near Bigelow, attended the Bigelow schools, and finished one year of high school work, under Prof. L. O. Alkire—there being but one year of high school work here at that time, and he finished his school work at the Hephzibah Missionary Association, taking a Missionary course, at Tabor, Iowa. Two years were spent in teaching and planning for the Missionary field work. Mrs. Roy Adams is the daughter of Mr. and Mrs. O. E. Morehead, of Tabor, Iowa, and she is also a graduate of the Tabor schools, and like her husband, is very much interested in Missionary and religious work. These young people have no doubt made a wise choice in choosing to give their very best services to the Master and for the heathen of Japan. Bigelow should be proud to say that one of our boys has gone to a foreign country in obedience to the great commission, "Go ye into all the world and

preach the gospel to every creature." Plans are being made for special services, Sunday evening, and Bigelow and vicinity should attend this farewell meeting in full force. More Brains.

"More fish more brains," is an old saying. It may be that Senator James A. Reed and his secretary, Don M. Hunt, thought the latter was needed by the people of this section, and consequently they kept pushing until they have succeeded in having the Big Lake stocked with a large supply of bass, crappie and sun-fish (blue pills), through the action of the National Fish Commission, at Washington, which ordered a whole car load of these from its Illinois hatchery. The car was a specially built car for such purposes, and consisted of 90 ten-gallon cans, and was consigned to John F. Iden, at Fortescue, who was on the ground when the car came, last week, and Mr. Iden got them to the Big Lake and placed them promptly in this fine body of water. The Big Lake, never since it was surveyed by the government in the '30's, was in better condition than it is today. It is full of moss and pins, and the fish have abundance of food, and splendid water conditions. With the proper spirit and unity of purpose on the part of the land-owners in that section, Big Lake can easily be made the finest fishing and hunting resort in our state. The way to resume is to resume—the way to make Big Lake the place of all places to fish and hunt, is to get busy, and do the things that will accomplish this. Mr. Iden, the Junior of this great religious weekly, C. D. Zook, Seaborn Carson, R. G. Ruffy and others have been helpful in bringing about this liberal supplying of the lake with fish.

The Griffith Brothers, L. L. and E. E., will hold a public sale of pedigreed Durocs in Mound City, Mo., at Terhune & Young's barn, on Saturday, November 11, 1916. Their offering will consist of twenty boars, and twenty-two gilts, and some of the best blood lines in the country are represented in their herd. In their sale, they will offer both sexes sired by Top Inventor, the famous thousand-pound boar, Mo. Chancellor, Col. Inventor and Conover, winner of first prize at St. Joseph Stock Show in 1914. These hogs have all been vaccinated with the double treatment. If possible, inspect their hogs at their farm, seven miles northwest of Mound City, before date of sale, and be convinced that they are good.
